

"The LIV Fertility Center has given me a unique view of infertility causes and its treatments. Throughout my career, I have witnessed the progression of fertility treatment and the miracles achieved for so many individuals. It's an exciting future, and here at LIV we are pushing forward, constantly researching new methods and ways of overcoming infertility." — **Emb. Karla Martin Del Campo Ruiz**

MEET OUR EMBRYOLOGIST

Emb. Karla Ruiz is the lead embryologist at the LIV Fertility Center in Mexico. With extensive experience and proficient skills, Karla has earned a widely recognized reputation for excellence.

Using the latest technology, Emb. Ruiz focuses on testing both sperm and eggs to ensure healthy, viable embryos for implantation during in vitro fertilization. Her experience and expertise also allows her to improve implantation rate as well as review embryo quality before implantation.

Born in Guadalajara, Mexico, Emb. Ruiz's enduring passion and commitment to LIV patients has influenced the future of reproductive medicine. Emb. Ruiz received her Master's Degree from the prestigious Barcelona University in Spain after completing Career Studies in Biology at Guadalajara University. Her ongoing training and previous directing positions for the top IVF clinics in Mexico have given her the capacity and strong leadership for the following areas: Andrology, Embryology, Immunoenzymatic Techniques, and Molecular Biology.

Behind a comprehensive and appealing resume, Emb. Ruiz is impeccably fluent in English and Spanish. She is a vigorous individual who loves reading, exercising, running on the beach while watching the sunset, and adores her pets. International cuisine is an extremely significant part of Karla's life — as well as cooking and tasting different flavors from other cultures.

Believe in Fate. Believe in Love. Believe in LIV.
